Suggestions for Writing your Scholarship Essay

The purpose of the essay is to persuade the Scholarship Committee Judges to consider you as a qualified candidate to receive scholarship funds. When beginning an autobiographical or narrative essay, remember that the reader is unfamiliar with you as an individual. Through your writing, the committee must be able to develop an understanding of your past and present accomplishments. Equally important will be the statement of your education and career goals.

It is best to have your essay 500 words or less. Be concise and to the point with the goal of stressing positive aspects about yourself.

You will be evaluated on the following topics:

1. Professional Goals/College Choice

Describe the professional goals you would like to achieve in two to four years. If you are enrolling in a particular program, tell us why you have chosen this course of study. If you are enrolling in a general program, please tell us how this will help you meet your goals.

2. Accomplishments (Personal, Professional and Academic)

Please describe your personal and/or professional accomplishments of which you are most proud. This can be, but isn't limited to, organizations/activities outside of school in which you have participated, leadership position you have held in organizations, academic and other awards received, etc.

3. Community Involvement

Please describe your involvement in community related activities or groups. This would include community volunteering or service that is either formal or informal and is done in consultation with local nonprofit, governmental, and community-based organizations.

4. Financial Need

Please describe your circumstances regarding financial need and the impact the scholarship will have upon your situation.
